Recycle Your Gold

Treasure the Past
Make It New

Have heirloom gold? We can melt and reshape it into your rings.

Prices:

1 Ring - €150

2 Rings - €250

We'll assess your metal and confirm suitability. Chains aren't ideal (too much solder), but most solid gold pieces work well!

Steps for Melts

1. Check for metal karat (hallmark located on piece) 9K 375. 14K 585. 18K 750.
2. Weigh your jewellery in grams using a small digital scale.
3. Choose how wide you want your ring/rings, 2mm - 6mm.
4. Check your ring size. You can come in to our store on Drury Street to check your size.
5. Get in touch with us with this information **2 weeks** before your workshop and we can check if you have enough metal for your rings.
