# Recycle Your Gold

Treasure the Past  
Make It New

Have heirloom gold? We can melt and reshape it into your rings.

**Prices:**

1 Ring - €150

2 Rings - €250

We'll assess your metal and confirm suitability. Chains aren't ideal (too much solder), but most solid gold pieces work well!

# Steps for Melts

1. Check for metal karat (hallmark located on piece) 9K 375. 14K 585. 18K 750.
2. Weigh your jewellery in grams using a small digital scale.
3. Choose how wide you want your ring/rings, 2mm - 6mm.
4. Check your ring size. You can come in to our store on Drury Street to check your size.
5. Get in touch with us with this information **2 weeks** before your workshop and we can check if you have enough metal for your rings.

# Stone Setting
